

SAFETY ELEMENT UPDATE

The City of Santee Department of Development Services is updating the Safety Element of the General Plan which is intended to reduce loss of life, injuries, and damage to property resulting from natural and human-caused public safety hazards including flooding, geologic and seismic hazards, fire, traffic hazards and crime. New legislation requires the Safety Element to include climate change adaptation and environmental justice policies for disadvantaged communities.

Information on an upcoming community survey and upcoming virtual meetings will be posted on the City's website. For email notification please email crios@cityofsanteeca.gov. Click [here](#) to view the current Safety Element.

Anticipated Timeline of Steps
